Kegerator party checklist

Get the equipment ready, then explain the guest station before friends arrive.

Party date: _____ Setup / tap: _____

□ Keg has chilled and rested as the supplier recommends.

□ Liquid temperature has been compared with the brewery's serving guidance.

□ Line, faucet and coupler service record is current.

□ Correct coupler and equipment checks are complete.

□ Test pour has been observed; unexpected foam or flow is resolved.

□ Clean glasses, water and alcohol-free choices are ready.

□ Guests know how to pour, record pours if needed, and follow agreed cost sharing.

Guest handover / host notes: _____

Optional paper pour log

One mark means this agreed serving: _____

Guest / label	Pour marks

Prefer a browser pour log? Try the DrinkCountr guest demo at drinkcountr.com/demo/. It builds an itemized tab from recorded pours; guests arrange payment separately. DrinkCountr and Kegnotes share a founder. This is optional.

These are your checks, not an equipment inspection. The interactive checklist also offers a paper or tablet handover.
